

Eco Possibilities for Entrepreneurship

Říčany, Czech Republic

31th October. – 14th November 2017

About the exchange:

The youth exchange “Eco Possibilities for Entrepreneurship” will take place in Říčany, Czech Republic and it will unite 24 young people that are interested in ecology and entrepreneurship. They will work together on different tasks and discuss various topics, therefore it is important that the participants are fluent in English. Also, we will ask the participants to prepare for the project before, bring ideas and contribute to the organization of the programme.

On the first day, we will play team- and trust building games to make sure everybody gets to know each other and make a good team. The first part of the project will be dedicated to various discussions in order to broaden our knowledge of ecology. In the second part, we will concentrate on entrepreneurship. The participants will be divided into groups and work on their own projects of “eco business”. The final part of the project will be dedicated to promotion of ecology and eco business amongst the public. The participants will prepare their own way to accomplish this goal and then have one or two days to carry out their activities.

After coming back home, the participants will be motivated to be more engaged in the field of ecology and have the skills needed to start their own “eco business”.
