

# Digital Youth

26.3. - 5.4. 2022  
Mersin, Turkey

Co-funded by the  
Erasmus+ Programme  
of the European Union

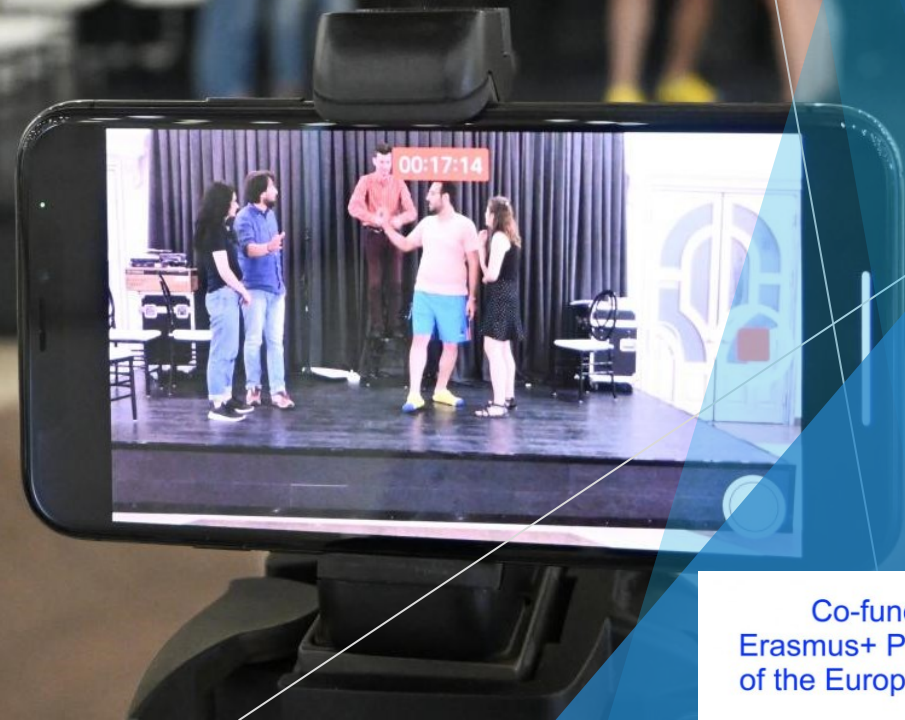

## Description of the project:

- ▶ The training course will gather around 30 participants (youth workers) in the city of Mersin in Turkey. We will address topics such as intercultural dialogue, diversity, tolerance, etc. and explore the idea to use audiovisual technology as a method of promoting these topics amongst young people.
- ▶ The participants will take on the challenge to create short movies with messages they want to share. This way, they gain not only the experience connected to creating a movie (preparation, shooting, editing, acting), but they also learn to work in an international team. The movies will then have their big premiere on the last day.

# Profile of participants:

- ▶ Currently involved in working with young people on the regular basis or express serious commitment to get involved in the future
- ▶ Ready to actively participate in whole project (preparation, training course and follow-up)
- ▶ Ready to organize at least 2 follow-up activities using the experience from this training (individually or together with another person from the same country)
- ▶ Fluent in communication in English

# Content:

- ▶ The project has two kinds of aims - the first one is to promote intercultural dialogue and tolerance by using various activities and games. The second one is to teach the participants to use audiovisual technology (camera, computer softwares).
- ▶ In the second half of the project, the participants will take on the challenge to create their own short movies with messages they want to share. This way, they gain not only the experience connected to creating a movie (preparation, shooting, editing, acting), but they also learn to work in an international team. The movies will then have their big premiere on the last day.

## Concrete outcomes:

- ▶ Knowledge about cultural diversity, and cultural realities of various countries
- ▶ Breaking prejudices and stereotypes
- ▶ Basics of movie-making - creating a script and a shooting plan, using the camera, postproduction, acting, etc.
- ▶ Being able to use these new skills in youth work + creating concrete plans for follow-up
- ▶ Working in team, cooperation
