**Call 2023, Round 1, KA153-YOU - Mobility of Youth  
Workers**

**INFO  
PACK**

**INFO PACK FOR THE**  
“ Our Youth, Our Planet, Our Future”

### Dates

- 08 April – 12 April 2024 (excluding travel days)
- Activities will start at 09:00 on Monday, 08 April and will end after lunch (13:00) on Friday, 12 April.
- Friday afternoon is planned as free time. In addition, those who have a return flight on Friday evening will be able to leave Berlin the afternoon.

### Venue of the meeting

- Place: Berlin (Germany)
- The mobility/events/activities will be carried out in Berlin. Location on Google Maps is:

<https://maps.app.goo.gl/zstN5GNheCjMvuZ26>

### Language of the activities

English

### Partners

There are 6 partners from 6 different countries in the project . The activities will be carried out with the following organizations:

- GERMANY – prEU nec GmbH
- TÜRKİYE – Inovatif ve Girişimci Toplum Derneği
- CROATIA- Udruga za promicanje pozitivne afirmacije mladih u društvu "Impress" Daruvar
- NORTH MACEDONIA- Citizen Association United Youth
- POLAND- Fundacja Na Rzecz Wspierania Innowacji Społecznych Idea Lab
- CZECH REPUBLIC- Asociace TOM CR, TOM 21105 DUMANCI

### Accommodation

- As is well known, the budget for youth projects is limited.

- The accommodation is reserved for the arriving participants. The rooms in these hostels are designed for 3 to 4 people. However, men and women may not be accommodated together. Therefore, we will create a list for participants, where the partners will register their participants (m,w).

- Those who have an evening flight on Friday, April 12, can leave, but those who have a flight on Saturday, April 13, will be accommodated in the hostel for one more day.

- The location of the accommodation is marked on the map as follows:

<https://maps.app.goo.gl/fjykMpLC233RFDw7A>

Pegasus Hostel

Adresse: Str. der Pariser Kommune 35, 10243 Berlin

### Meals

- Participants are provided with 3 meals per day.
- Breakfast is served in the hostel. Lunch will be served at another restaurant or at the hostel when we are on site. We will return to the hostel for dinner.
- Places and times for meals are already planned.
- Before arrival, participants will be asked about their food preferences, depending on whether they have allergies or health problems.

### Flight tickets

- Flight tickets are purchased by the participants or the partner organizations, but payment is made in cash by the coordinating organization to the participants during the week of the activity.
- Participants must provide an invoice or receipt in order to receive payment. Participants must also provide a signature confirming that the ticket fee has been paid to them in cash.
- Payment will be made up to the amount of the invoice.
- It is recommended to buy a train ticket (weekly ticket at the airport -ABC UMWELTKARTE 49€ per person)

**In addition to all these, it is worth noting that the maximum ticket price that can be paid (per participants) according to the countries is as follows:**

- TÜRKİYE – 360 EUR
- CROATIA- 275 EUR
- NORTH MACEDONIA- 275 EUR
- POLAND-275 EUR
- CZECH REPUBLIC- 180 EUR

### Participants

Our main target group, our youth workers, who will take part in the project activities, will be people who work voluntarily in partner institutions. Although it is assumed that 6 people from each organization will participate in the mobility activity of the Project. Although there is no age limit for youth workers, it will be necessary that the youth workers who will participate in the project activities are **over the age of 18.**

**Erasmus+**

Changing lives. Opening minds.

### **Transfers/Transportation**

- The nearest airport to Berlin is BER Airport. It is about 25 km away from the Pegasus Hostel. The nearby S-Bahn station is called OSTBAHNHOF.
- There are trains from the airport to the city center of Berlin or to the hostel.
- Public transportation is used for activities within the city.

### **Climate**

- It is usually 13 degrees in April in Berlin, but it can also rain. That's why you should take a jacket with you.

### **Currency**

- In Berlin we only use "EURO €" as currency. This means that stores and restaurants do not accept any other currencies. You can also use your credit or debit card almost everywhere. So please be aware of this fact.

### **Social Media**

Within the scope of the project, there will be a Whatsapp group and an Instagram page.

- Whatsapp: This group will be used in order to provide information to the participants before they come, to share during the activities and to disseminate for a certain period at the end of the activity. Link:

<https://chat.whatsapp.com/DRvrTYFZzpR14YeHCgDJ6W>

- Instagram: The Instagram page of the project will be created as and all participants and stakeholders are expected to follow the page.

### **Activity Programme**

The mobility program is attached.

Note: Although everything is tried to be adjusted, there may be minor changes that can be made during the program.

### **Special needs**

If you have some participants with special needs, please inform us well.

**If you have any questions, please don't hesitate to contact us;**

13.00-15.00p.m	Summing up the learning outcomes of the seminar and Youthpass Introduction to Youthpass and Identifying Learning objectives Evaluation and Closing	communicative activities,question and answer,role play,brainstorming,pair works,group works	
15.00-17.30	Evaluating the experiences - trekking activity in a nature	communicative activities,question and answer,role play,brainstorming,pair works,group works	
17.30-19.45	Certificate Ceremony		

## General Information About Project

### Our Youth, Our Planet, Our Future

With this project, the following are aimed:

- Conservation of natural resources through cooperation initiatives in the cross-border field,
- Developing capacity for sustainable use of resources and management of common natural resources,
- Raising awareness in the field of protection and restoration of ecosystems,
- Creating the necessary awareness among young people about clean environment, conscious consumption, recycling and waste reduction.

The partner organizations involved in the project consist of partners who struggle with environmental pollution, have project experience in 3R (reducing waste, reusing and recycling resources and products), have the same problems, can produce alternative solutions, are compatible with teamwork, present creative ideas and have a participatory understanding. When the institutional knowledge and experiences of our partners are examined, we anticipate that they will benefit the project with their previous experiences and experiences and will serve the purpose of the project.

With these qualifications we aim;

- To guide young people for a clean environment
- To comprehend the importance of conscious consumption and recycling in sustainable life.
- To gain new perspectives on zero waste, waste reduction, recycling
- To ensure the integration of the practices used by youth workers and youth-related institutions/organizations in different countries.
- To enable young people to learn about the activities to be done to increase their awareness of clean environment and recycling and to raise awareness on this issue.

### Target Groups

Our main target group, our youth workers, who will take part in the project activities, will be people who work voluntarily in partner institutions. Although it is assumed that 6 people from each organization will participate in the mobility activity of the project. Although there is no age limit for youth workers, it will be ensured that the youth workers who will participate in the project activities are over the age of 18.

### What activities we plan to implement?

Day 1: On the first day of the project, the project process will be started with introduction games and opening speeches by the trainers. The questions of the participants, if any, about the program will be answered by the experts and they will be asked to create rules that include common decisions as a group. Each group will be asked to present the work done in their country and organization on the project topic.

Day 2: Collaborative groups will be formed. On the second day of the training, collaborative groups will be formed and teamwork will be ensured, and the participants will be able to communicate with each other more quickly by doing teamwork in which they talk about their experiences in the fight against environmental pollution. In addition, the knowledge and competence of the participants on 3R applications will be increased.

Day 3: On the third day of the training, short films will be watched, which will enable them to comprehend the importance of environmental awareness, recycling and waste management.

Afterwards, participants will be asked to shoot a short film. In addition, good practices of countries in the fight against environmental pollution will be shared.

4th day: On the 4th day of the training, a visit will be made to the factories and institutions that carry out projects related to the environment, on how waste materials are recycled, and the practices used there will be observed on site. The seedling planting area will be determined with the meetings to be held with the host organization, and the seedlings brought by each partner country from their own country will be planted.

5th day: On the 5th day of the training, environmental cleaning will be carried out in a region determined by the participants, and the photos and videos to be taken will ensure that awareness reaches wider masses through social media. The screening of the short film will be presented. Experiences will be evaluated, certificates will be awarded and closing will be made.
