

# Nature and Primitive Technology

Czech Republic, 19. – 31. 8. 2020

## About the project:

In the current digital age, we are enjoying many benefits that the modern technology brings and we got so much used to them that it's hard for us to imagine living in a different way. We find it hard to disconnect from the social media, we are used to spending a lot of our free time online and we take things such as central heating or electrical stove for granted.

It can be a very challenging, but also rewarding and funny experience trying to find ways to live without all the technology around us.

This youth exchange will take place at our beautiful campsite in South Bohemia on the bank of the river Lužnice, surrounded by water from one side and forest from the other one. The settings give us many opportunities to learn to live in nature and disconnect from technology. We can try cooking on fire, building shelters, creating ceramics, making simple tools to use, etc.

We will also play various games in order to explore the nature as well as the countryside around and improve our outdoor skills. We will for sure do activities to get to know each other well, build a strong team, debate about interesting topics and learn a bit about other cultures.

Last but not least, we are going to organize a trip to Prague and another trip to a place we can choose together – potentially Tábor or Český Krumlov, but we can figure out something together.

## Accommodation:

We will be staying in an attractive touristic location on a bank of the river Lužnice. In the morning you can enjoy the beautiful view of the river covered in steam and at night you can watch the sky full of stars. We will be quite far from civilization, which is a wonderful opportunity to have a rest from all the civilization. We will also provide you with good food according to your taste and wishes.

Staying in the countryside also means that you will not be living in a five-star hotel. We will be accommodated in three cottages and share two bathrooms. We recommend bringing a warm sleeping bag, towel, shoes you will be able to use in wet grass, slippers to wear in the cottages and a torch.

We like our camp and its surroundings very much and so we will teach you how to keep it clean and nice. We will show you how to sort the waste and how to put dirty dishes into the washing machine, so that we leave the place as beautiful as we found it.

You can check out pictures from the campsite here
